

Express Termite Protection Plan

You have enough to worry about let Express Services take responsibility for your insect and termite concerns.

Our termite protection plan guarantees that if termites damage your home we will not only provide all necessary treatment we will also repair new any damage that may have resulted.

Your Termite Protection Plan Includes*:

- Annually we will perform a complete home inspection inside and out (you may also call for an inspection anytime you may have concern)
- If termites are discovered we will provide all necessary treatment for no additional charge
- And yes in the event damage results from a new termite infestation we will make the repairs*
- Express utilized the most up-to-date technology performed by our highly trained staff.
- This ultimate in termite protection is available for as little as \$32.00 per month
- Customer come first at Express

Express Services offers a variety of termite solutions; including liquid applications to include plant oil based solutions, baiting, non chemical inspection and structural modification alternative.

*Not all properties qualify for the Express Termite Protection Plan, service offerings are determined by our findings during the initial termite inspection, and examples of determining factors include but are not limited to, active termite infestations, prior termite infestations and or damage, design and accessibility of the property. Only active accounts will benefit from subsequent treatment and or repair of termite damage, failure to pay will result in lost coverage. The presence of live termites must be confirmed by an authorized representative of Express Services prior to the performance of any treatment or repairs. The property must be available for inspections no less than once annually.
